

## Testimonials from 2018 FASPE Law Fellows

*"The concept of FASPE, to focus on the perpetrators and the role of the respective professions, is great and different from the Holocaust studies."*

*"I think the faculty avoided making facile comparisons between the Holocaust and the present day while still emphasizing the importance of this history and these principles to today."*

*"This was one of the best educational experiences of my life, and I appreciate how low-stress the logistical and financial aspects of it were, enabling us to focus on the intellectual and emotional intensity."*

*"I already have recommended the program to my peers and will continue to do so. FASPE was a transformative experience that will be very helpful to my entrance into the legal profession."*

*"Each member of the FASPE staff did a truly phenomenal job organizing this trip, particularly given the immense emotional strain that it caused all of us. I thoroughly enjoyed the close interweaving seminar/discussion, learning, and historic sightseeing, as well as the social and otherwise extracurricular time."*
