

2024 Design & Technology Application

Deadline: Tuesday, January 2, 2024 at 11:59 PM EST

Short Essay Questions

You will find the following questions on the online application at the Submittable portal. Please be prepared to upload your responses to these questions in a **single PDF document**, along with the other components of the application, by the FASPE Design & Technology deadline using the link in Submittable. Responses should not exceed 1500 words in total.

1. Why are you interested in FASPE, and how do you think the program will influence your growth within, and approach to, the professional world of design and technology?
2. Describe an ethical concern you have about the professional practice of design (incl. technology design) that you expect to encounter in your career. (This concern should not be about technology per se, but rather about professional practices.) Discuss potential causes of the issue and consider both structural remedies and the responsibility of the individual designer or technologist.
3. Describe a difficult ethical leadership decision involving a trade-off that you have made or observed. How was the decision reached? Should anything have been done differently?
4. What experiences in your own cultural, academic, or professional background will enable you to enrich program discussions?
5. Tell us about a novel, play, poem, painting, sculpture, piece of music, or other work of art (loosely defined) that had an impact on who you are today, and tell us why.
